

Grade 5 Homework: #1

Assigned: Wednesday, October 2, 2013

Due: Monday, October 7, 2013

This paper must be kept in your homework duotang. Homework needs to be organized like the example provided to be considered complete (date, name, titles, headings, and labels). It can be written by hand, completed on a computer and printed out, or posted on your blog.

_____ I put my homework on my blog at MrToft.ca.

(If you choose to do this: save your work on your home computer – just in case!)

_____ My homework is on separate sheets of paper and is in my homework duotang.

Student's Name: _____

Parent/Guardian signature: _____

Math

- Pick five different digits (0-9). Write them down. Rearrange these digits to create the **largest** number. Organize Write the number in standard form (words) and expanded form.
- Without using decimals, rearrange these same digits from above to create the **smallest** number. Write the number in standard form (words) and expanded form.
- Rearrange these same digits to create a number that is **between** your smallest and largest numbers. Represent this number in a place value chart.

Language Arts

Write a recount about either:

- a recess you remember clearly. Describe what you did.
- something you did with your family recently. Describe what you did.

Please write a rough draft first and hand in your second (or third, or fourth, or fifth ...) polished copy!

Write at least 5 sentences. Give your paragraph a title. Please don't write more than half a page! You may add a hand drawn or computer drawn picture if you wish, but that is optional!

Our Trip to Pinhey's Point

Last weekend my family went to Pinhey's Point to have our pictures taken. Pinhey's Point is a beautiful place. It's a kind of park beside the Ottawa River that has a museum and ruins of old buildings. Our photographer used these buildings and the colourful fall leaves for the background of our family pictures. I look forward to seeing how the pictures will turn out.
